

Blanking Caps/Socks/Bins

- BFM® blanking caps can be used to prevent contamination during clean down or change-over. They protect products and prevent dust emission into the factory.
- Sifter oversize collection socks or bins are another ideal application for the BFM® concept.
- Transparent for monitoring fill level and reject consistency, socks can be lined with plastic bags for a fast, hygienic solution to disposing of sifter waste.
- Available up to 650mm (25½”) diameters.
